

Procurement Services Overview

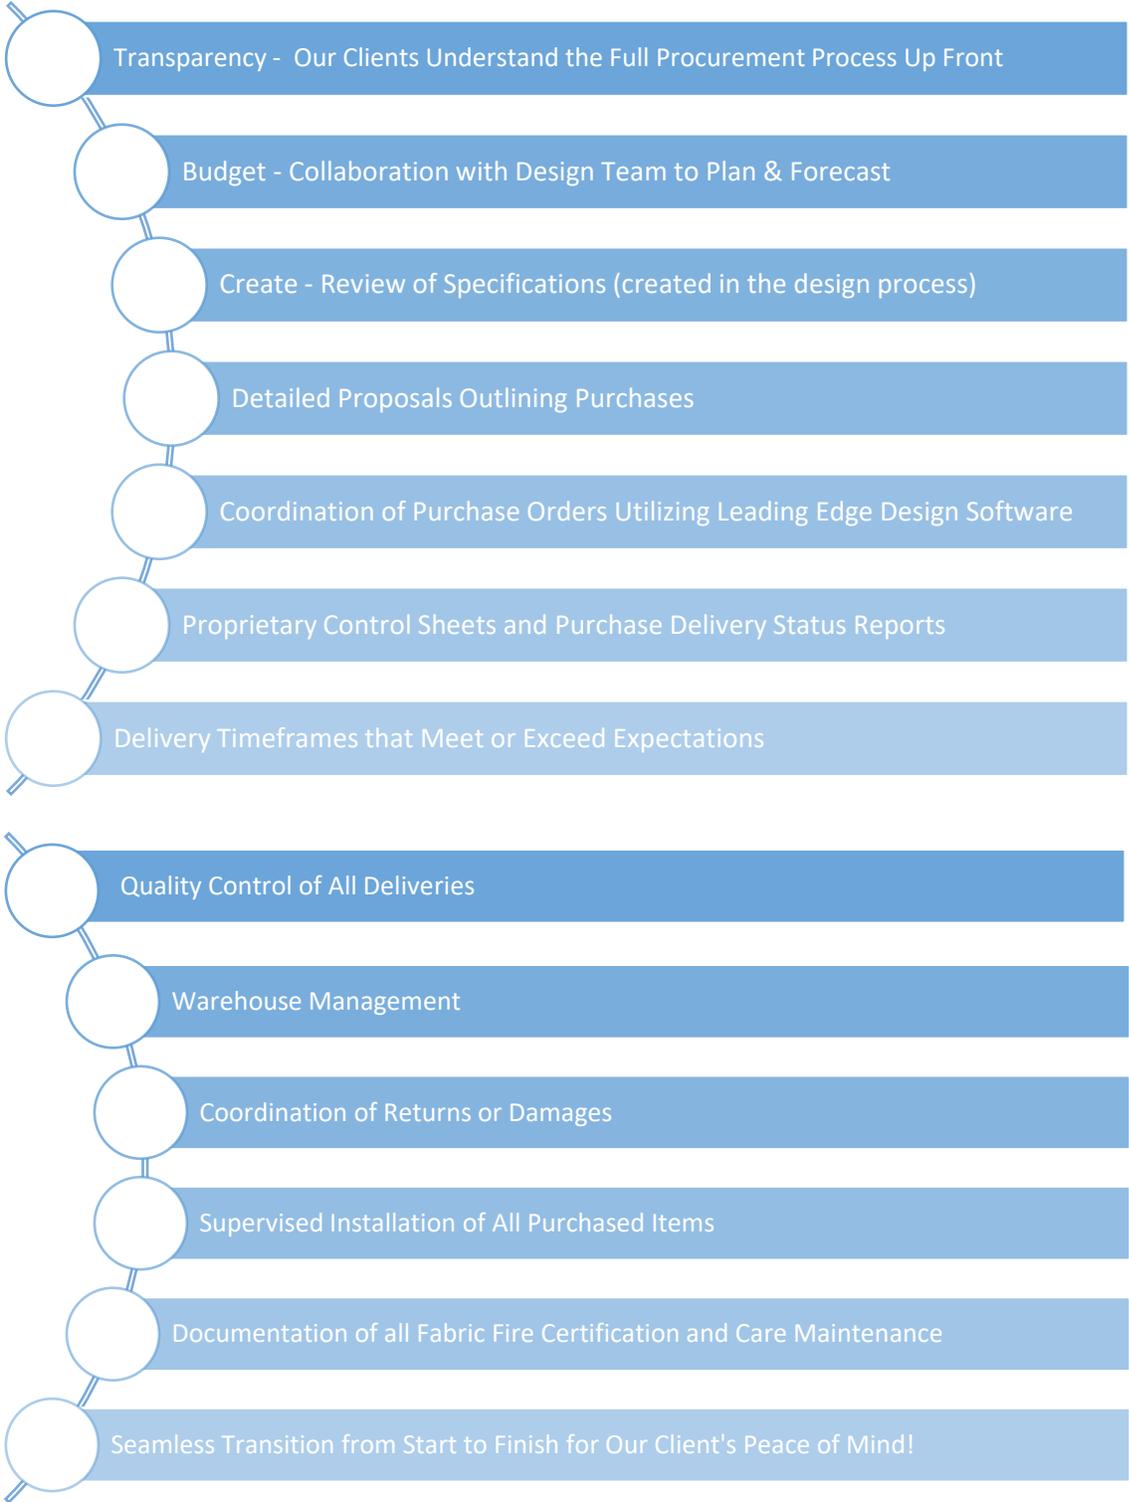

Founded in 1983, JBD JGA Design and Architecture provides an all-inclusive turnkey solution to complement our design services and tightly manage your project's furniture, fixtures, and accessory purchases. Our Procurement Team is experienced in maintaining budgets, schedules, and making cost effective decisions to assure an organized installation and on time furniture delivery.

Our advanced approach of offering a single source procurement solution provides our clients the benefit of our expertise and long-standing relationships with our extensive list of professional suppliers and vendors. We work hand-in-hand, with skilled artists and craftsmen from across the industries to assure that our Designers and Procurement Team are knowledgeable and savvy in the offerings, customizations, and high standards of production for each manufacturer. This service ensures the end result satisfies the overall conceptual design, and the budgetary requirements for our clients both regionally and nationally.

Procurement is more than ordering furniture and having it delivered to you. Ordering large quantities of customized furniture, ornate lighting, and the myriad of intricate pieces is time consuming and requires the utmost attention to detail. With years of experience, the JBD Procurement Team takes control of everything 'behind the scenes', seamlessly coordinating all aspects of the process, to ensuring we surpass client expectations.

Process of Procurement

Our Work and Our Clients

See for yourself what clients have to say about their experiences with the JBD JGA Procurement Team.

“We selected JBD JGA to work on our Clubhouse Renovation and Restoration due to their unparalleled experience with planning major projects, Clubhouse design, architectural excellence, and cultural fit with our Club leadership group. We could not be more pleased with the process and end result.”

~ Bob McKillip, Committee Chair, Ridgewood Country Club

“ Our experience using JBD JGA Design and Architecture for recent renovations at The Nassau Club was exceptional. Their programming, attention to detail, and ability to create beautiful, lasting spaces while improving its functionality proves they understand how the private club industry works. They took the necessary steps to guide us through the procurement process from initial ordering through installation assuring complete operational success. We believe that working hand in hand

with JBD and JGA was one of the best decisions The Nassau Club made during the renovation process.!”

~ Steve Pieretti, General Manager, The Nassau Club, Princeton, NJ

“My wife and I hired JBD to decorate our new home this past year. Of course, the design work that JBD provides is second to none! That being said, managing a large decorating project requires much more than just the creative work. JBD’s purchasing department made the process incredibly smooth as they worked meticulously to place purchase orders, prepare delivery schedules, coordinate shipping and provide outstanding customer service. The purchasing team was incredibly assertive, detail oriented, and professional. As the various rooms began to take shape, I could tell the team took great pride in their work at JBD. I could not imagine handling such a large-scale project without the help of such a personable and skilled team.”
